

Worksheet 1: Simple Steps to Planting Seeds

The garden box has everything you need to grow plants from seed and the steps to growing plants are simple...

1. Get your pots
2. Fill the pots with the compost and fertilizer, Fill within an inch of the top of the pot
3. Sprinkle some water over the soil. (About a small teacup) Poke some little holes into the compost using your finger and or tip of pencil.
4. Sprinkle 2 or 3 seeds into each little hole you have made and cover with a handful of compost mix.
5. Place your pots in a warm place, on a windowsill in the kitchen or bathroom is perfect but anywhere with plenty of light
6. Now you need to wait and water every couple of days (Don't let your soil get dry)
